## Teaching Responsiveness to Caregivers Using the Coaching Model

This course provides clinicians practical knowledge for how to implement caregiver-centered intervention. The course will cover a key strategy from the evidenced-based intervention Enhanced Milieu Teaching as well as an evidenced-based instructional approach for caregivers. Providers will learn the rationale and efficacy behind these models and learn how to implement them via video examples.

This program is being offered for 1.0 EI credit.

This program is being offered for 0.1 ASHA CEUs (Introductory Level; Professional area).

Northwestern University School of Communication, The Roxelyn and Richard Pepper Department of Communication Sciences and Disorders is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. **See course information for number of ASHA CEUs, instructional level and content area.** ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.
