DOES YOUR CHILD USE A HEARING AID OR COCHLEAR IMPLANT?

The Early Intervention Research Group would like to learn more about language and literacy in elementary-aged children with hearing loss.

Participants will receive:

- Comprehensive reading, writing, and language assessments over 9 months
- An 8-week computer training program to work on your child's academic skills
- Up to $690 for your participation

Eligibility:

- Your child is 5-7 years old
- Your child has been diagnosed with hearing loss and uses either a hearing aid or a cochlear implant
- Your child has no other disabilities
- You live in the Chicagoland area

All study sessions will be conducted in your home by a Northwestern staff member!
